

Student Testimonial

Gurhan Turkey

Junior Programme

Language in Action

Why did you chose to study here in London?

I was curious about London and really wanted to visit - it's a beautiful city. Plus I wanted to learn some English and now I can practise it in school, and I have made new friends from around the world. I've made some new friends and found out interesting things about their countries; multicultural classes are better for me to learn English.

How has the support been whilst studying here?

The teachers are always asking if I need any help, they're always smiling and they're so kind to me.

Has your English improved since you've been here?

My English has improved for sure, when I'm in Turkey I'm always talking Turkish with my friends but there's people from other countries here so it has got better.

What places have you been in London?

I have been to the London Eye, London Bright, Kings Cross and Oxford Street - they were amazing.

What advice do you have for future students?

If you want to study here, it's the best place in London because you have everything you need, and the teachers are always kind and supportive so it would be really good for you if you want to study here.
