

# Student Testimonial

**Ruba** Saudi Arabia

**General English**

*Malvern House London*

## How did you find yourself studying here at Malvern House London?

I came with my brother here; I came to support him. I am in the advanced class, and I wanted to improve my English more because I'm a medical student and my speciality is Radiotherapy. So I wanted to improve my English skills further.

## How do you find your classes in the school?

The teachers here are amazing; Mr Jeff, Mr Simon, Miss Lina - all are really great. You meet new people from different cultures here. It's really great, and I've had a lot of fun in this school.

## What is it like studying in a multi-cultural environment?

The people are really nice - I have a lot of

Brazilian and Italian friends who are really great and nice.

## What advice do you have for future students?

I would tell them; "go for it, it's really great!" Just take a good amount of time to help you improve your English, especially if you're elementary level. If you study well, you'll improve really quickly.
